

ARC 200

Application:

Automobile
Shipbuilding
Fabrication
Repair Shop

Processes:

SMAW (Stick)
GTAW (TIG)

Features:

IGBT Inverter Technology.
Digital Meter for accurate parameter setting.
Step less Current Control.
All electrodes including 6010, 7010 & 8010.
Suitable for Steel, Stainless Steel, Low Alloy Steel.
Supports upto 100 m Welding Cable.
Heavy Duty & Light Weight.
Low Spatter and Easy Arc Ignition
High Power Factor & High Efficiency.
IP 21S Compliance.

Technical Data:

Model	Input Supply	Input Power	Output Range	Rated Output	OCV	Dimension	Weight
ARC 200	120 – 560 V 1 Phase 50/60 Hz	8 kVA	0 – 200 A	200 A @ 60% duty cycle	60 VDC	L: 225 mm W: 160 mm H: 225 mm	3.9 kg

Standard Package:

CC Power Source - 2 Nos Connectors
